3. In Legislative Dept 1910 Rajamanthra pravina Dewan Bahadur J. S. Bhatia vari submitted a note suggesting for the consideration of Govt the desirability of abolishing Octroi in the Municipalities in the State having regard to the inherent defects of that system of taxation. The chief of the defects are.

(i) that Octroi allows leakage of revenue,

(ii) that it allows facilities to Municipal employees for peculation and oppression

(iii). That it hampers the free course of trade &

(iv) That it causes inconvenience loss, expense and delay to the traders wherever he comes in contact with the Octroi Dept

The Dy Comrs were consulted As no satisfactory solution was arrived at to make good the loss by the abolition of Octroi the papers were recorded with the remark that if any Municipal Council or Board were disposed to abolish Octroi either entirely or partially they may do so after submitting definite proposals and obtaining the sanction of Govt.

4. The question of abolition of Octroi in the two Cls Municipalities was not then considered as Rai Chakravarti suggested that their case might be taken up only when difficulties arising in the case of other Municipalities were successfully got over.

5. But the question of abolition of Octroi had been in the State had been considered in 1891 but it had to be dropped

as Octroi is the mainstay of our municipal revenue & that no suitable substitute could be found. Attention is invited to paras 5 to 10 of the notes at pages 4 to 9 of the printed Collection just up in which the question of financial retrenchment of the Bangalore City Municipality has been fully discussed. Those remarks apply with double force at present.

6. This is not the first time the Civil Station Municipal Commissioners are considering the question of abolishing Octroi. In 1886 it had been abolished there. It was reintroduced in 1891. The present resolution of the Municipal Commissioners is to the effect that Octroi be abolished from 1st April 1924 as the income of the Commissioners is substantively increased by the reassessment of houses, & that a Sub Committee be appointed to find means & methods to add to the revenue of the Commissioners if possible. From the resolution it is clear Seemes that the Municipal Commissioners are not keen about maintaining the loss from the

abolition of Octroi. It is likely that the loss will be made good by a lump annual subvention from the Local Government

7 In the Bangalore Cly. the any amount of increase in the direct taxes will make good the loss from the abolition of Octroi. The Bangalore Cly Water Works is a white elephant and a large percentage of the Municipal income will have to be set-apart for their annual maintenance and Capital works. No doubt the abolition of octroi in the C Dn & Bn will affect the Octroi revenue to some extent. This partial loss can be made good by other means
